

Chiselborough Village Hall Facilities

- All hirers have the use of the entire building and grounds. Also 80 upholstered chairs, 12 trestle tables, and 10 smaller square 'card' tables are readily available, for inside use only. In addition we offer 10 wooden trestle tables, 20 plastic chairs, and a number of wooden chairs—for outside use. The Main Hall is the centrepiece of this historic building. It is large, light and airy, with 3 windows of considerable size and beauty. The high ceiling is particularly striking, with attractive exposed timber joists. Seating capacity is around 50 for dining events with tables, or up to 80 for seats in rows without tables - for talks or performances, for example.
- The hall also hires out up to 30 sets of cutlery, dinner plates, side plates, dessert bowls, sundae dishes, cups and saucers and spoons, along with the 10 wooden trestle tables and both plastic and wooden chairs. Hire rate depending on requirement.
- WCs: Ladies, Gents, and Disabled
- Wheelchair access: Disabled access is currently partial as the entrance into the Main Hall is not sufficiently wide to allow access by the new, wider wheelchairs. This matter is being addressed by the committee and we hope to progress to a solution soon.
- Parking: On road outside the Hall.
- Heat & Light: There are effective high wall-mounted electric heaters in the Main Hall. Hirers obtain electricity by easy-to-use coin-fed units. £1 or £2 coins required.
- Stage: Readily to hand is a composite stage, suited to erection at one end of the Main Hall. Stage lighting and a PA system is also available, at an extra hire charge. A Loop hearing system is available; it is activated when the PA system is on and when the microphones are in use.
- The premises are not licenced – users may either bring their own, or apply for a licence for the evening.

Anyone wishing to hire the hall must do so through a Chiselborough resident, and that resident must be prepared to take responsibility for the hire.
